345 Streptomycin Uptake via an Inducible Polyamine Transport System in *Escherichia coli*
J.-V. Höltje

353 Kinetics of the Interaction of α-Chymotrypsin with Trypsin Kallikrein Inhibitor (Kunitz) in Which the Reactive-Site Peptide Bond Lys-15—Ala-16 is Split
U. Quast, J. Engel, E. Steffen, H. Tschesche, and S. Kupfer

361 Isolation and Chemical Characterization of the Enterobacterial Common Antigen
D. Männel and H. Mayer

371 Serological and Immunological Properties of Isolated Enterobacterial Common Antigen
D. Männel and H. Mayer

381 Multi-Enzyme Complex of Glutamine-Dependent Carbamoyl-Phosphate Synthetase with Aspartate Carbamoyltransferase and Dihydroorotase from Rat Ascites-Hepatoma Cells. Purification, Molecular Properties and Limited Proteolysis
M. Mori and M. Tatibana

389 Complex Formation between the Adenovirus Type 5 DNA-Binding Protein and Single-Stranded DNA
P. C. van der Vliet, W. Keegstra, and H. S. Jansz

399 Cytochrome c from *Schizosaccharomyces pombe*. 1. Purification, Spectral Properties, and Amino-Acid Composition
M. L. Claisse and A.-M. Simon-Becam

407 Cytochrome c from *Schizosaccharomyces pombe*. 2. Amino-Acid Sequence
A.-M. Simon-Becam, M. L. Claisse, and F. Lederer

417 The Interaction of Human Hemoglobin with Erythrosin. Comparison of Hemoglobins with Variously Liganded Heme Groups
I. Kalousek, D. Jandová, and Z. Vodrážka

423 The Structure of Carbohydrate Chains of Blood-Group Substance. Isolation and Elucidation of the Structure of Higher Oligosaccharides from Blood-Group Substance H
V. A. Derevitskaya, N. P. Arbatsky, and N. K. Kochetkov

439 Polypeptide Synthesis in Toluene-Treated Lymphocytes
O. R. Burrone

447 Biosynthesis of Thromboxane B_2 and 12-L-Hydroxy-5,8,10-heptadecatrienoic Acid in Human Platelets. Evidence for a Common Enzymatic Pathway
A. Raz, D. Aharony, and R. Kenig-Wakshal

455 Covalent Binding of an NAD Analogue to Liver Alcohol Dehydrogenase Resulting in an Enzyme-Coenzyme Complex not Requiring Exogenous Coenzyme for Activity
M.-O. Månsson, P.-O. Larsson, and K. Mosbach

465 Translational Regulation of Expression of the Brome-Mosaic-Virus RNA Genome *in vitro*
W. Zagórski

473 Binding of Microtubule Proteins to DNA: Specificity of the Interaction
V. G. Corces, J. Salas, M. L. Salas, and J. Avila

481 Localization of the Oxytocin Receptor in the Plasma Membrane of Rat Myometrium
D. J. Crankshaw, L. A. Branda, M. A. Matlib, and E. E. Daniel

487 The Acceptor for Polar Head Groups of the Lipid A Component of *Salmonella* Lipopolysaccharides
V. Lehmann, J. Redmond, A. Egan, and I. Minner

497 Dual Action of Double-Stranded RNA in Inhibiting Protein Synthesis in Extracts of Interferon-Treated Mouse L Cells. Translation is Impaired at the Level of Initiation and by mRNA Degradation
J. A. Lewis, E. Falcoff, and R. Falcoff

511 Calsequestrin, Myosin, and the Components of the Protein-Glycogen Complex in Rabbit Skeletal Muscle
B. Caudwell, J. F. Antoniw, and P. Cohen

519 The Effect of Fatty Acids on the Regulation of Pyruvate Dehydrogenase in Perfused Rat Liver
R. Scholz, M. S. Olson, A. J. Schwab, U. Schwabe, C. Noell, and W. Braun

531 Use of the T4 Polynucleotide Ligase in the Joining of Flush-Ended DNA Segments Generated by Restriction Endonucleases
V. Sgaramella and S. D. Ehrlich

539 Incorporation and Asymmetric Orientation of Glycophorin in Reconstituted Protein-Containing Vesicles
E. J. J. van Zoelen, A. J. Verkleij, R. F. A. Zwaal, and L. L. M. van Deenen

547 Cycloheximide Causes Increased Accumulation of Translatable mRNA for Tyrosine Aminotransferase and Tryptophan Oxygenase in Livers of Cortisol-Treated Rats
E. Hofer and C. E. Sekeris

555 Regulation of Turnover GTPase Activity of Elongation Factor G: the 30-S-Coupled and 30-S-Uncoupled Reactions. Coordinated Effects of Cations, pH and Polyamines
G. Sander, G. Parlato, J.-B. Crechet, K. Nagel, and A. Parmeggiani

565 Compound I Formation with Turnip Peroxidases and Peroxybenzoic Acids
D. Job and P. Jones

573 Formation of Complexes between Microsomal Cytochrome *P*-450-Fe(II) and Nitrosoarenes Obtained by Oxidation of Arylhydroxylamines or Reduction of Nitroarenes *in situ*
D. Mansuy, P. Beaune, T. Cresteil, C. Bacot, J.-C. Chottard, and P. Gans

581 The Influence of Prolonged Ethanol Intake on the Levels and Turnover of Alcohol and Aldehyde Dehydrogenases and of Brain (Na + K)-ATPase of Rats
C. Guerri, R. Wallace, and S. Grisolia

589 Mechanistic Aspects of the Transfer of Nascent Periplasmic Proteins across the Cytoplasmic Membrane in *Escherichia coli*
J. M. Pagès, M. Piovant, S. Varenne, and C. Lazdunski

603 Evidence for Synthesis of Alkaline Phosphatase on Membrane-Bound Polysomes in *Escherichia coli*
S. Varenne, M. Piovant, J. M. Pagès, and C. Lazdunski
